Included in the packet is a list of endowed scholarships that have become difficult to award over the years. When these scholarships were created, there were more live classes on the campuses. Staff is asking for permission to change the “must attend live on campus” to “must reside in the respective county which the campus is located in if no live classes are available”. This would allow more scholarships to be awarded each semester.

Ms. Fruge stated the issue is with when the scholarships were written in the past they specifically stated that the student had to attend the campus which it is located in. We would like to amend the agreement stating that the students would live in the same county as the campus but may attend internet classes.

Ms. Barrett stated that the Foundation has money sitting in accounts because they cannot be awarded due to the strict criteria and that is one thing the LCB Auditors found with most of the foundations.

Discussion took place regarding if the agreement should be changed to not exclude other counties where students may lose out and to make sure all there are no living donors or attorneys available to change the agreement. Ms. Barrett stated her, and Ms. Fruge would handle making sure there are no living relatives or contacts available.

Trustee Glennon stated that a memo should be signed by himself and placed in the file, he then added the Chair and Vice-Chair should be involved.
