

Assessment: Course Four Column

Courses (CTE) - Welding

WELD 160:Weld Design/Layout & Pipe

Course Outcomes	Assessment Measures	Results	Actions
<p>Safety principles - Safety principles in the weld shop will be followed at all times.</p> <p>Course Outcome Status: Active</p> <p>Next Assessment: 2020-2021</p> <p>Start Date: 09/01/2016</p>	<p>Exam - Students will be required to take a written welding safety test and observation of the student's safe working habits will be performed. Students will be stopped from working for unsafe acts and their work habits will be rectified. 20% of the student's grade will be deducted for blatant safety violations.</p> <p>Criterion: Students will be required to pass the welding safety test with 80% accuracy before they will be allowed to work in the shop. Students will perform safe work habits in the welding laboratory.</p>	<p>Reporting Period: 2015-2016</p> <p>Criterion Met: Yes</p> <p>Students passed the written safety test with a minimum of an 80% and followed safe work habits in the welding laboratory. (09/01/2016)</p>	<p>Action: Students will be required to pass a written test with an 80% minimum and will be observed to ensure that safe practices are being followed. (09/01/2016)</p>
<p>Laboratory Assignments - Laboratory Assignments</p> <p>For the laboratory assessments, the students will demonstrate their ability to produce satisfactory welds, pipefitting joints, and layouts.</p> <p>Course Outcome Status: Active</p> <p>Next Assessment: 2020-2021</p> <p>Start Date: 09/01/2016</p>	<p>Demonstrate - Students will demonstrate their ability to produce satisfactory welds, set forth by the American Welding Society's D1.1 Structural Welding Code and pipefitting joints to dimensionally accurate specifications.</p> <p>Criterion: Students will earn a minimum of 60% on laboratory assignments.</p>	<p>Reporting Period: 2015-2016</p> <p>Criterion Met: Yes</p> <p>Students were able make satisfactory welds on pipefitting joints that were dimensionally accurate. (09/01/2016)</p>	<p>Action: Students will be required to make satisfactory welds on pipefitting joints to that are dimensionally accurate. (09/01/2016)</p>
