Assessment: Course Four Column

Courses (SCI) - Biology

BIOL 224:Anatomy & Physiology II

Course Outcomes	Assessment Measures	Results	Actions
Comprehension of the physiology - Students will be able to understand the structure, functions and physiology of the nervous, endocrine, cardiovascular, Respiratory, urinary, reproductive, lymphatic systems. **Course Outcome Status:** Active **Next Assessment:** 2022-2023	**Exam -** Lecture exam, laboratory quizzes together with Class room discussions. Extra credits **Criterion:** NA	**Reporting Period:** 2017-2018 **Criterion Met:** Yes Exam – 1 – total score 20 High - 19 Median- 15 Low- 7 Exam – 2 – Total score - 100 High- 89 Median- 56 Low- 34 Exam – 3 – Total score - 100 High- 84 Median- 56 Low- 39 Lab Exam – 1- Total score – 50 High- 46 Median- 28 Lab Exam – 2- Total score - 50 High- 45 Median- 36 Low- 14 TOTAL 20 students Grades	**Action:** 35% of the class have scored grade A & B which is a good score given the difficulty level of the class. Student who are having "C" &"D" grades are not putting in the effort required for this class or they are still not ready for college level classes. Most of them enrolled in this class are pursuing Nursing but they are not ready to put in efforts required for nursing career as they are busy with two jobs. There were many opportunities to improve their grades by submitting extra credits and online homework but if all these easy opportunities did not help them to score 80% and above then I think they are not ready and repeating this class may help them prepare better for professional courses. (02/05/2019)
