

ALCOHOL AND DRUGS STANDARDS OF CONDUCT

Alcohol and Drugs Standards of Conduct

[The Board of Regents Handbook, Title 4, Chapter 20, Section 4](#), states the NSHE's alcoholic beverage policy. It governs storage, possession, and use of alcoholic beverages by people of legal age. It also mandates disciplinary action against "any student who exhibits offensive behavior on university-owned or supervised property while under the influence of alcoholic beverages". Use and possession of alcohol and drugs are addressed in the Student Code of Conduct.

You must have the written permission of the President in order to have alcohol served at any GBC location or event.

Legal Sanctions

Legal sanctions are governed by the Nevada Revised Statutes. Such sanctions result from a police report filed with the district attorney's office. Legal action may take place concurrently with campus disciplinary action. For additional information, please contact 775.327.2354.
