CTE COLLEGE CREDIT AT GREAT BASIN COLLEGE

The Nevada System of Higher Education and the Nevada Department of Education established a system to award college credit to high school students who complete state-approved career and technical education programs. The credit, called CTE College Credit, is awarded to students based on articulation agreements established by each college for the CTE program, where the colleges will determine the credit value of a full high school CTE program based on course alignment.

The goal of this system is to prepare students to earn a postsecondary credential in less time and at lower cost.

CTE College Credit is free and is awarded to students who: (1) complete the CTE course sequence with a grade-point average of 3.0 or higher; (2) pass the state end-of-program technical assessment for the program; and (3) pass the Workplace Readiness Assessment for employability skills.

To receive your CTE College Credits at Great Basin College, complete the General Application for Admission for GBC and the online CTE College Credit Application by visiting: gbcnv.edu/cte
