NOV 10 1917

Mr. Henry W. Dietz,

Superintendent of Irrigation.

My dear Mr. Dietz:

The Office is in receipt of your letter of October 15, 1917, with reference to land and water right matters in the Ruby Valley, wherein you suggest that surveyors of the General Land Office relocate the corners of a forty-acre tract in dispute between Indians and white claimants.

By letter dated March 13, 1917, the Assistant Attorney General advised the Secretary of the Interior that upon a further investigation of this matter the United States Attorney for the District of Nevada represents that the State of Nevada, to which this tract was listed as school land, has not yet divested itself of its title, but has simply executed a contract in favor of Ira D. Wines and that only one-fifth of the purchase price has been paid. The Attorney General suggested, as a precautionary measure, that the General Land Office be instructed to inform the State Land Register of the Government's views as to the improper certification of this tract, and to ask that no sale be made until the rights of the Government could be determined.

Under date of March 26, 1917, the Department directed the Commissioner of the General Land Office to advise the proper state officials of the request of the Department of Justice and it is expected that this may result in a determination of the question of title to this tract, possibly without resort to court proceedings.

The Office understands that appropriations available for survey work cannot be used on land, the title to which is in private ownership, and, until title to this particular tract is again invested in the Government, it is not deemed advisable to request the Commissioner of the General Land Office to have an official survey made with a view of relocating the original corners.

INITIALING COPY - FOR FILE.

As to the adjudication of water rights in the Ruby Valley, by conference with the State Engineer, as well as water rights in the Muddy River, from which source the Indians of the Shoshone River Reservation obtain waters for irrigation purposes, it may be said that the Office is not in position at this time to detail some one from headquarters to attend this conference. Could it not be possible to arrange with the State Engineer to postpone this conference to a more convenient date?

Very truly yours,

*(Signed) E.B. Meritt*

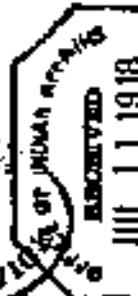

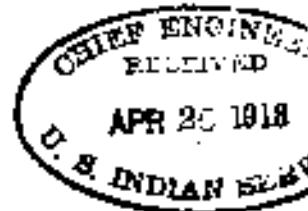

11-6-LCW.

Assistant Commissioner.

220 M. Street, S.E.  
Washington, D. C.

April 25, 1918

Mr. W. H. Reed,  
Chief Engineer Indian Affairs,  
Interior Department,  
Washington, D. C.

Dear Sir:

For a number of years your Department has had considerable correspondence in regard to land and water troubles of some Indians in Ruby Valley, Elko County, Nevada, Indians claiming land and water that were filed upon by the writer and associates.

At least eight or ten Inspectors from the different Departments of our Government have made inspection trips in the last five years and attempts have been made by claimants of land vs water to settle all of the differences through the Indian Office at Reno, Nevada. The Indian Office in Reno have earnestly tried to settle the trouble, but the Indians do not seem to think anything is fair unless it is all in their favor. We have been put to a great deal of expense and a great deal of damage has been done as well as annoyance from the actions of these Indians. Threats have also been made against our lives.

I respectfully ask that the Washington Office of Indian Affairs take steps to settle all of the troubles at an early date.

The points that require attention are as follows:

*W.H.R.*  
1. Some action to prevent the Indians from turning water (for which they have no right) on their land during the coming season.

We do not expect as much water during this season as last year, due to small amount of snow during the early part of the winter. We will have more grain planted than in previous years and hope we will not lose the crop as we have in the past, on account of Indians cutting our ditch, even when there was plenty of water in the main stream.

If we ask for an injunction or have them arrested as we would if they were white men, it may lead to serious trouble.

2. Suggest an adjudication of the waters of *Overland* Creek by the State Engineer of Nevada at the request of your Department, to determine the relative rights on this stream. This will also be a basis upon which the State Engineer can decide ~~—~~, whether or not there is unappropriated water in this source, and if the application for water made by your office for the Indians can be approved by him.

3. Rights of way for main ditch already constructed over Indian land with their verbal consent, also for proposed new ditch to be built, or old ditch enlarged, that is shown on your map as "Indian Ditch."

In case I am called from Washington, all matters can be taken up with E. S. Taber of Elko, Nevada as my representative.

Mr. S. L. Zines of Ruby Valley, Nevada and Mr. W. A. Reinker of Elko, Nevada should be consulted by any representative you might send out if a field investigation is required.

Mr. W. A. Reinker of Elko, Nevada will manage the property this year.

I expect to be out of Washington in connection with my work most of the time, but any mail will be forwarded that is addressed to

220 B. Street, S.E., Washington, D.C.  
and could arrange to meet any representative from your office if notified a week or so in advance.

July 11, 1918  
Very respectfully,  
*B. G. McBride*  
Captain, Ordn. B.C.  
Chief Engineer.

May 22, 1918.

To the Secretary of the Interior.

41720

Sir:

I am in receipt of the First Assistant Secretary's <sup>FILED BY</sup> letter of the 17th instant, inquiring as to action taken relative to the controversy between Ira D. and Stanley J. Wines and Joe Nichols, a member of a band of the "Eastern Shoshone Indians," as to title to 16 acres of land in Ruby Valley, Nevada.

I have the honor to inform you that the United States Attorney for the District of Nevada has been directed to file a Bill in Equity, praying that certificate No. 1778 and any and all other documents of title in said land held by Ira D. and Stanley J. Wines be declared to be null and void and cancelled; that the defendants be required to account to the plaintiff in full for all the hay and grain taken by them, or either of them, from the land; that a restraining order be entered against the defendants perpetually enjoining them, their agents, and all persons claiming under or through them, from interfering in any

Original returned to Dept

The Secretary of the Interior.

-2-

matter with the possession and use of the land by the plaintiff or its ward, Joe Tinker, and a general prayer for relief.

The case is somewhat different from any heretofore brought, and has required considerable correspondence in order that the Department and the United States Attorney might be thoroughly informed as to all matters involved and the decisions having a possible relation thereto.

Very respectfully,

For the Attorney General,

(Signed) A. J. Kearful  
Assistant Attorney General.

ADDRESS REPLY TO  
THE ATTORNEY GENERAL

H.V.C.

The Secretary of the Interior.

Sir:

Further referring to the Assistant Secretary's letter dated March 26, 1917, and referring to Department letter of July 10, 1918 (K-AHS 181648-17), I have the honor to inform you that after the filing of suit against Ira D. and Stanley J. Wines, they wrote the United States Attorney that they would quit-claim the land, if refunded the money paid by them to the State of Nevada therefor, and requested the United States Attorney to use his best efforts to secure a refund from the State. He was directed to inform them that the Department was not disposed to assist them in securing from the State reimbursement for the money so expended, but authorized to furnish the proper State officials with a statement showing that the lands were inadvertently certified to the State, that suit had been brought against Ira D. and Stanley J. Wines for the annulment of the title claimed by them, and that they had thereupon executed in favor of the Indian a quit-claim deed to the land.

The United States Attorney reported August 27, 1919,

(1)  
60

The Secretary of the Interior, October 14, 1919.  
151648-26

2

that he had communicated the facts to the Surveyor General of the State, as directed, and had requested him to make a notation thereof and also that the Government asserted ownership. He reported further that the Surveyor General replied in part as follows:

It seems to me that the proper course of procedure, as in all such cases, that upon the filing in this office of a certified copy of the U. S. Government's decree of judgment, or the deed from the state's applicant to the United States, then I can legally proceed to cancel the contract between the state and its applicant for the purchase of said land and reconvey by deed, the state's title to the United States, with the consideration of allowing the state to select other lands in lieu thereof, or to give the state credit on its front for the number of acres.

I have the honor to suggest that your Department take up the matter with the proper officials of the State of Nevada with a view to inducing them to reconvey the land to the United States and to request that you inform the Department as to your action in the matter.

Very respectfully,

For the Attorney General,

*Frank M. Keeley*  
Assistant Attorney General.  
*Y.M.C.*

NOV 13 1919

Dear Mr. Fallman:

Your attention is invited to your letter of March 24, 1916, addressed to the Commissioner of Indian Affairs (658956 "Pa" B & C), concerning the ownership of the  $\frac{1}{4}$  of  $\frac{1}{4}$  of Section 25, Township 20 North, Range 28, West, N. D. W., Nevada, claimed by Joe Timoteo, an Indian, which tract was selected by the State of Nevada under the Act of June 16, 1890 (Pl. Stat. 267), and certified by letter "O" of your office January 28, 1898. It appears from the said letter that the tract in question was purchased by Ira D. Wines in 1897, who subsequently deeded it to his son, Stanley J. Wines.

This matter was subsequently presented to the Department of Justice upon the showing submitted on behalf of the Indian claimant, and it later developed that the State of Nevada had not at that time divested itself of its title, but had simply executed a contract to purchase in favor of Ira D. Wines and that only  $\frac{1}{5}$  of the purchase money had been paid.

In view of these facts, the matter was brought to your attention by Departmental letter of

INITIALING COPY - FOR FILE

March 26, 1917, and you were directed to inform the State Land Register of the views of the Government as to the improper certification of the land (as set out in the letter received by this Department under date of March 15, 1917, from the Department of Justice), and to ask that no sale thereof be made until the rights of the Government could be judicially determined.

It was claimed on behalf of the Indian, Joe Timoko, that he was occupying and had improved the land prior to the selection by the State, and for this reason, the land was not subject to selection or certification under the Act of June 16, 1880, supra.

It appears from the papers in the case that the said Departmental instructions of March 26, 1917, were transmitted to the local officers at Elko, Nevada, by your letter "PS" dated March 31, 1917. There is also with the record a copy of your office letter of March 15, 1918 (558956 "PS" L. B. S.), to the Register and Receiver at Elko, Nevada, requesting a report in the matter.

Your attention is now invited to the enclosed copy of a letter from the Department of Justice, dated October 16, 1919, reviewing the action of the Government against Ira D. and Stanley J. Wines, and reporting the fact that the defendants had executed in favor of the Indians a quitclaim deed to the land. It will also be observed that in view of a statement made to the United States Attorney by the Surveyor General for the State of Nevada, the suggestion is made that this Department take up the matter with the proper officials of the State with a view to inducing them to reconvey the land to the United States.

You are, therefore, directed to call upon the proper officials of the State of Nevada and request that they execute a proper instrument reconveying the land involved in this suit to the United States. Please take prompt action in this case and notify the Department the result thereof.

Cordially yours,

(Sgd.) S. G. HOPKINS.

Assistant Secretary.

1 WHF 19 Hon. Clay Tallman,

Commissioner of the General Land Office,  
Inclosure 672.
