Department Chairs.
Per the Department Chairs' meeting on Friday, November 7, chairs agreed to cast a re-vote concerning the prioritization of faculty positions. The reason for the re-vote is because President's Council clarified the prioritization procedure and requested justification for the positions prioritized.

The previous vote ranked three positions; however, only two positions will be funded. Funding for the two positions is generated from a retirement (Computer Technologies) and a vacancy (Business). The reference librarian position was eliminated by the budget task force committee; therefore, leaving no funding stream for the position. To fund a non-existing position money would have to be redirected from other sources, most likely from one of the instruction positions.

Each of the areas requesting a position have provided written documentation describing their need for a position. Please cast your vote for the two positions you would like to see prioritized as #1 and #2 by responding to this email. Positions to be considered are:

Business - Marketing and Management Instructor
Computer Technologies - BAS/DI Computer Technologies Instructor
Library - Reference Librarian

2015 Faculty Priority Recruitment List

1. Computer Technologies - BAS/DI Computer Technologies Instructor
2. Business - Marketing and Management Instructor

2015 Faculty Priority Wish List

1. Library - Reference Librarian

The list will be presented at faculty senate for approval on November 21.
