❖ Introductions of all members and guests.

❖ Old Business

Advised the committee about how the disaster drill held on May 4, 2017 in the Solarium and surrounding area went. Discussed that the plan was for similar drills to be held at the end of the spring semester jointly between GBC students and local first responders each year.

Talked about what the committee has done in the past; review of new policies, safety inspections of labs, proposals for safety improvement to B &G and what we can/should do this semester.

❖ New Business

Pat will be bringing the annual security & safety report she has to complete each year to the October meeting for review. All faculty and staff must be notified of this report by Dept. of Education policy.

Pat will talk with B & G Mgr. Tony Cortes to determine what areas may have issues during our Nevada Day fire systems tests and this will be the area we conduct a walk through inspection of for the October meeting.

❖ Safety concerns or projects the committee has

The committee discussed the Behavioral intervention type calls Pat has responded on during the past couple of years and how the number and severity of events seems to be on the rise. Pat provided overviews of some of the situations.
