

Redevelopment of courses

Implement - Redevelopment of Existing Classes for classes that have substantial changes in course content or equipment shall be granted additional workload units with prior approval of the Dean & VPAA. Workload units may be awarded for significant upgrade of course content based on an evaluation by the Dean if the extra work duties performed are above normal course maintenance. The amount of workload units may be determined by the extent of revisions required. This is not intended to be awarded annually. It is assumed that all instructors are continually updating the content and delivery of their courses on a routine basis as part of the assessment process.

3(A)ii placement in policy- replace no provision for redevelopment of courses.
