|---|--------------------------|
| 1. Roll Call:                           | Information Only         |
| 2. Chair Reports and Ex-Officio Reports | Information Only         |
| 3. Committee Comments                   | Information Only         |
| 4. Eng 107 -> Eng 100 Substitution      | Possible Actionable Item |

a. Veronica Nelson has requested a substitution for two students, Joshua Webster has approved of this substitution.

**-Student took English 100 and 108 Oscar -> Tami 2nd motion passes unanimously**

- |                     |                          |
|---------------------|--------------------------|
| 5. HSC 300 request. | Possible Actionable Item |
|---------------------|--------------------------|

a. Staci Warnert has requested the use of HSC 300 within the Integrative seminar grid for Bachelors of science column. Below is their email: "In December the Health Science Department requested HSC 300 be considered an alternate gen-ed course for INT 359 and it was approved. Since it has been approved we need consideration in the Gen-Ed Grid regarding the INT requirement to include the option of HSC 300. I am requesting that HSC 300 be added to the gen-ed grid so we can allow our students to take the course in lieu of 3 INT credits in the bachelor of science column. We are requesting this so that students can have a transferable course. I have looked for forms to complete, but am not sure what form to use for this request since HSC 300 has already been approved as a substitute for INT 359 and it is the gen-ed grid itself that requires the INT component. Please let me know if there is a specific form I can complete. I would also like to attend your next meeting to present this to the committee."

**-HSC 300 in the or option for INT 359 in the bachelors of science**

**-Deanna suggested as a creation for a WHIF / substitution blanket instead of adding it to the grid specific to that department.**

**-Hrdlicka discussed solidifying procedures as there needs to be a little more solid items.**

**--Motion was made to approve addition of HSC 300 to Program material for Health Sciences and Sonography. No changes to grid.**

**-Motion to approve: oscar -> robert 2nd abstaining: Steven Vote passes unanimously**
