A motion to approve the October 17, 2025 Minutes was by Daniel Murphree, seconded by Madison Arbillaga. Motion carried unanimously.

4. **Proposed New 90 Credit BAS Degree – For Information Only w/ Action via Email Vote**
 - **Presented by VP for Faculty Success, Sarah Negrete**

VP Negrete summarized the 90-credit degree proposal. For more detailed information, the proposal can be found on the Faculty Senate website under “Minutes and Packets”.

This is a brand-new degree that is specialized for the industry professionals who are in search of skilled individuals for project management and other supervisory positions.

It is not exclusive to only those in the industry field. Anyone can enroll.

Northwest approved institutions to offer 90-credit bachelor's degrees over the summer of 2025.

The GBC Catalog will need to include a fourth general education (GE) column to accommodate the 90-credit BAS.

Each department was given the opportunity to approve the GE requirements for their area.

Dean Karl Stevens adds that the 90-credit BAS does essentially cover the four categories of the GE objectives on page 79 in the current 2025-2026 catalog.

The GE requirements are not embedded into the program courses, but it is a possibility.

GE Chair Ethan Hawkley states that the Social Science department will be removing PHIL 311 from the Social Science GE requirement in the 2026-2027 catalog, as the course doesn't meet specific outcomes.

Dean Stevens explains that the 90-Credit BAS proposal was based on the current catalog, which includes PHIL 311 satisfying the Social Science requirement. Future changes to the catalog may require changes to the 90-Credit BAS proposal.

There was a suggestion to move forward with the 90-Credit BAS proposal now and make changes later. A discussion ensued regarding general education requirements, which resulted in an amendment to the motion stating that the proposal needs to go through GE before the vote. After everyone who wanted to voice their concerns in the matter was heard, Chair Sida reminded the Senate that ultimately this item is going to a vote, because if it isn't on the December 4th Board meeting, it will take another year.

A motion for an email vote for the Proposed New 90-Credit BAS Degree with the caveat that faculty receive notification of it passing through General Education beforehand was by Madison Arbillaga, seconded by Daniel Murphree. Motion carried unanimously.

UPDATE: On November 26, 2025, the result of the email vote concerning the Proposed New 90-Credit Bachelor of Applied Science (BAS) Degree was approved by majority and unanimously by all actively voting Senate Representatives.

5. **Senate Chair Verbal Report:** Chair Sida emphasized the importance of the committees and their chairs and all the hard work they are doing, especially with items such as this one. He appreciates all the committee chairs for stepping up. He recognizes the reluctance to serve as chairs on certain committees because of all the everyday tasks required of us, but if no one rises to accept these responsibilities, then nothing is resolved and the whole system is defunct, so thank you.

6. **Standing Committee Reports:**
