# WOW – A New BAS degree in Management and Supervision at GBC!!!!

You heard that correctly, GBC received approval from the Nevada Board of Regents to offer a new degree emphasis in Management and Supervision. As with the BAS degree previously offered at our college, it builds upon the foundation a student receives upon

completion of their Associate degree (AA, AS, AAS, or AGS). With new coursework in International Business and a capstone course in Leadership, employers will recognize this degree as having great value in the workplace of tomorrow.

If you want more information on the degree or are ready to get started on your program, please contact the Program Supervisor, Stephen Theriault at [stephen.theirault@gbcnv.edu](mailto:stephen.theirault@gbcnv.edu) ASAP.
